Work Experience

Freelancer

Sep 2021 - Present

Upwork

Currently working as a freelancer on Upwork as Java developer.

Java Developer

Nov 2021 - Jun 2023

ConradRP

I played a pivotal role in the development of robust microservices. I undertook diverse responsibilities including bug fixes, new feature implementation, and code optimization.

Education

June 2019 - June 2023

CGPA: 3.66

BS in Computer Science

Federal Urdu University of Arts, Science and Technology, Islamabad

2017 - 2019

601/1100

Pre-Engineering

Punjab Group of Colleges, Mianwali

2015 - 2017

830/1100

Matriculation

Punjab Secondary School, Mianwali

Final Year Project

Ecommerce Website (Microservice Arch.)

The idea of this project is to build an innovative ecommerce website using microservices architecture. By implementing CI/CD pipelines and harnessing Netflix Cloud libraries like Eureka, Zuul, and Hystrix, I ensured seamless service discovery, and efficient API gateway.

Personal Projects

Local Cloud (Java Spring Boot)

This idea of this project is to create a program to perform file upload and download operations from remote computers. Through meticulous implementation and integration of advanced technologies, the program aims to provide users with a streamlined and secure method of accessing and transferring files.

Audio Transmitter CLI Tool (Java)

The idea of the project is to create a program that facilitates seamless audio transmission between computers using UDP. With a user-friendly CLI, control the audio listener and sender effortlessly.

Oracle Object Storage Example (Java)

The idea of the project is to demonstrate how to store objects in oracle object storage bucket.

Activity Tracker (Python)

The idea of the project is to create a program that allows users to monitor and track various activities on their computer. The program provides options to capture random screenshots, track keyboard activity, and monitor mouse clicks.

Skills & Competencies

- Java, Kotlin, JS, Python, HTML, CSS
- Maven, Gradle, NPM, PIP
- Spring Boot, React JS, Express JS, Android Development (Kotlin), Flutter, PYQT5, jQuery, Tailwind CSS
- Netflix Cloud libraries (Eureka, Zuul, Hystrix etc)
- Java FX, Java Swing
- JPA and Hibernate
- JUnit, Mockito
- Docker
- MySQL, Postgres, MongoDB
- Jenkins (CI/CD), Splunk, Git
